

**Glamsmile**  
*The Ultra thin Porcelain Veneers*

We are proud to announce that we now offer GlamSmile®, one of the best-known brands of "No shot, NO drill" dental veneers and are often used in smile makeovers. Since GlamSmile® are the thickness of a contact lens, in most cases there is no need for tooth enamel to be removed in order to accommodate the veneer. Remarkably, they can also be placed over crown and bridgework, and the reversible placement process leaves the natural tooth structure intact.

*Finally, a painless way to reshape and permanently whiten your smile.*

**Our Clinic**

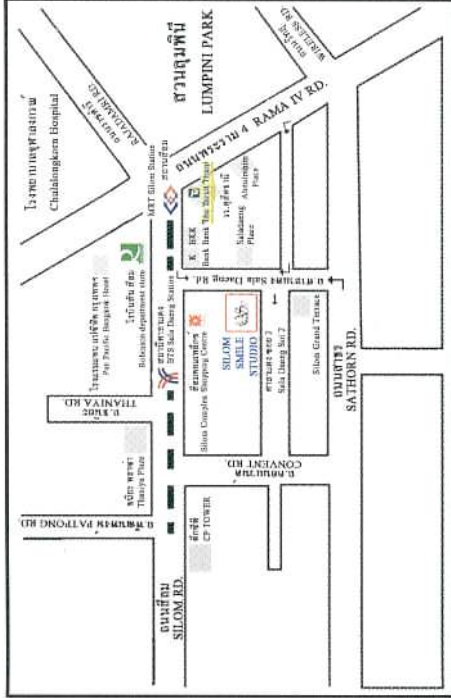

Welcome to the Silom Smile Studio dental clinic (S3), we provide not only with the very highest standards of dental care, but much more. As the leading restorative and aesthetic dental studio, we have been acclaimed for its pursuit of dental excellence and application of cutting-edge dental technology.

We provides the latest technology in our All-Ceramics (Metal FREE), as well as, the laser tooth whitening, "Glamsmile" the contact lens thin dental veneers for NO shot. No drill, the various zirconia ceramic, the latest in CAD/CAM systems to manufacture the reinforced porcelain crown and bridge frame works, and the immediate dental implants.

Your safety is always at the forefront of our mind and we operate under the strictest cross-infection control procedures. All equipment is fully sterilized between patients. Using a hospital grade autoclaves, which meet the new international standards for practice sterility. In addition the members of the team regularly attended courses on sterility to stay ahead of the latest guidelines and techniques.

## ● Invisalign Straighten teeth. No braces.

One of the most innovative advances in dentistry is the ability to straighten your teeth without traditional brackets. We use a series of the "clear" aligners, which are computer generated to gently and progressively alter the position of your teeth until they are perfectly aligned.

# invisalign

	Invisalign	Orthodontics
Invisible so no one can tell	yes	no
Removeable eat what you like	yes	no
Does not have uncomfortable metal to irritate your mouth	yes	no

- New VITA 3D master shade guide (29 shades to match your teeth)
- 2 year guarantee

### Testimonials.

I have a brand new smile and for the 1st time in my life, I do smile and it's a new life for me. Thank you.

I have to say that I was very apprehensive about all the dental work I needed. As a matter of fact, I was scabbing but all the staff & dentist were so professional and caring that I have overcome my life long fear of dentist that I have had since I was 10 year old. The braces were not an amazing and smile beautiful. I got a total lovely makeover.

••> MISS SAVVA D. / USA

want can I say! A friend of over 20 years - Silvia. And an extremely much better with the utmost care and consideration. The local prosthetic techniques are INCREDIBLE. I was so so scared - and it really truly was without reason. Why can't dentist in Australia be as good and skilled? Best wishes to everyone!
